

# Yellow Comet Headquarters instructions

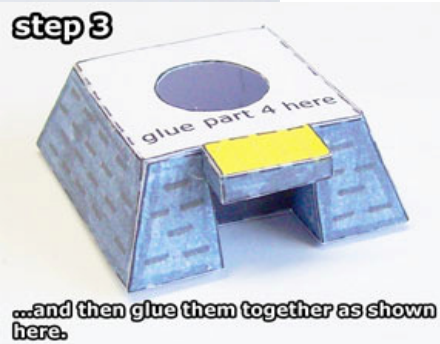

## step 1

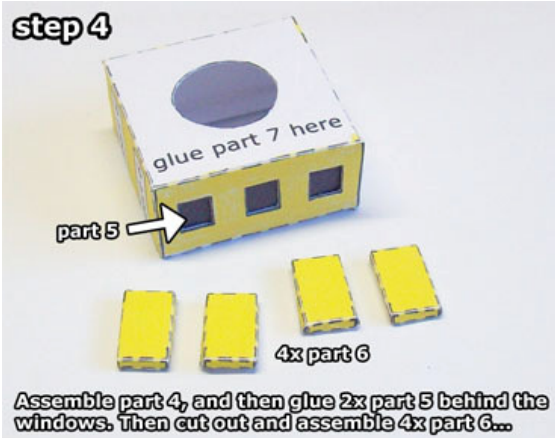

## step 2

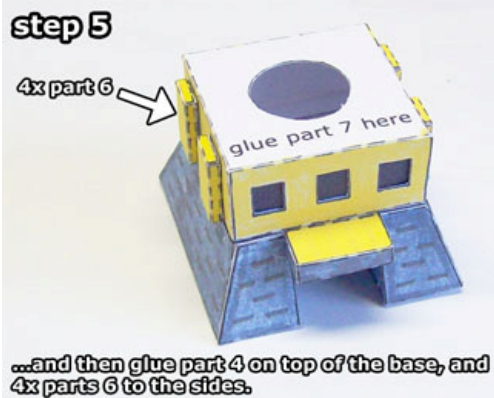

## step 3

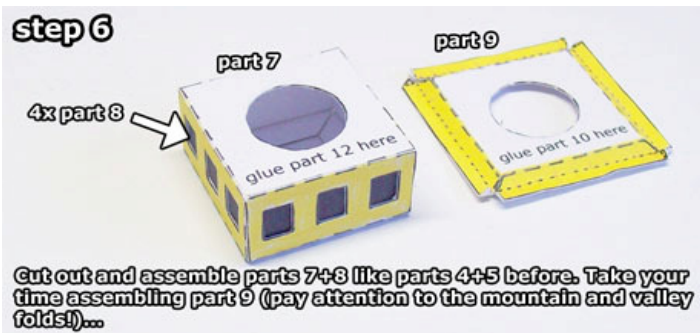

## step 4

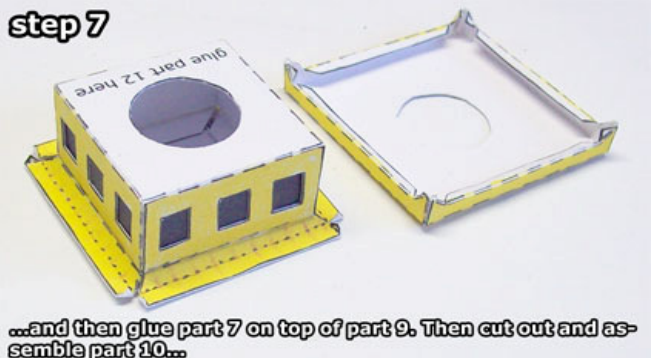

## step 5

## step 6

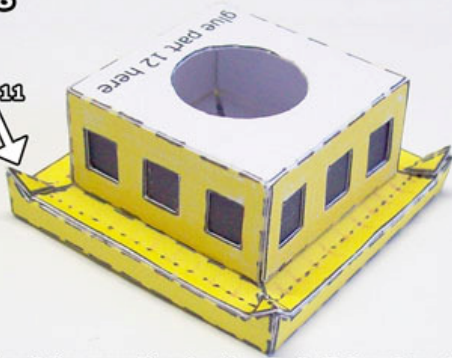

## step 7

### step 8

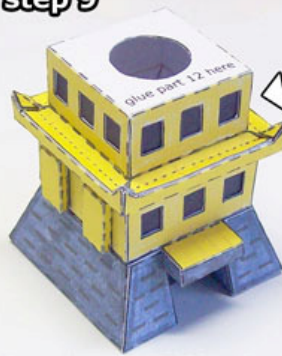

4x part 11

...and then take your time to glue parts 7-9 on top of part 10, and 4x part 11 to the cornerpoints.

### step 9

parts 7-11

Now glue parts 7-11 on top of part 4.

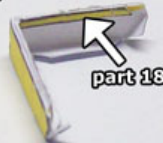

### step 10

Assemble parts 12-16 the same way as parts 7-11 (make sure you align the marked spots on parts 12 and 14 as shown here).

### step 11

part 18

Fold part 17, and then glue part 18 to the underside, along the edge without the glueing flaps as shown here.

### step 12

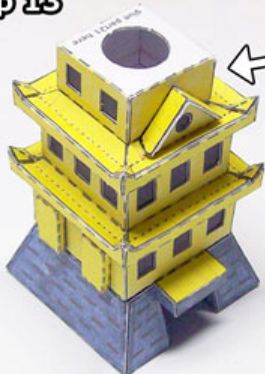

parts 19+20

Cut out the hole on part 19, and glue part 20 underneath. Then glue these parts underneath part 17, against part 18.

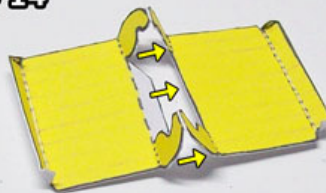

### step 13

parts 12-20

Then glue the dormer to parts 12 and 14 as indicated, and then glue the whole assembly on top of 7 (with the dormer pointing to the front!)

### step 14

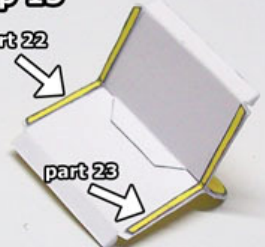

Take note of all the mountain and valley folds on part 20 before folding and glueing it together.

### step 15

part 22

part 23

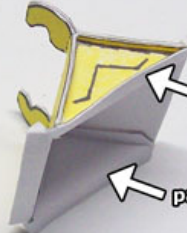

Next, glue parts 22 and 23 to the underside along the edges.

### step 16

part 24

part 25

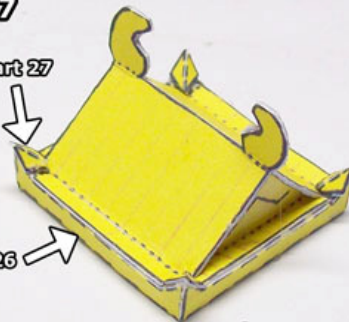

Glue parts 24 and 25 underneath the roof along parts 22 and 23.

### step 17

4x part 27

part 26

Glue the roof on top of part 26 just like the other roofs, and then glue 4x part 27 to the cornerpoints (tuck the ends underneath the roof).

**step 18**

**Yellow Comet  
Headquarters**

Finally, glue the roof on top of the tower.

Thank you for building a Ninjatoes' papercraft model!
